

IP-SAKTI Sahayak – Test Knowledge Source

Document title: Ayurvedic Herbal Formulation – Prototype Regulatory Note

Authority: Demo Ayurveda Research Institute

Document Type: Regulatory

Jurisdiction: India

Purpose

This document is a synthetic test source for the IP-SAKTI Sahayak knowledge-base ingestion and retrieval workflow.

It contains structured information about an Ayurvedic herbal formulation and its preparation.

Formulation

The formulation contains Ashwagandha root extract, Brahmi leaf extract, and Turmeric rhizome extract.

The ingredients are combined in a fixed proportion and prepared as a standardized oral herbal formulation.

Processing

The botanical ingredients are cleaned, dried, powdered, and extracted.

The extracts are filtered and blended before final formulation.

The process is intended to maintain consistent composition between batches.

IP-SAKTI Sahayak – Test Knowledge Source

Intended Use

The formulation is described for general wellness support in this test document.

This document does not establish clinical efficacy, medical claims, or patentability.

Record-Keeping

For a production knowledge base, each source should retain its authority, document type, jurisdiction, version, and page-level provenance.

Retrieval Keywords

Ashwagandha, Brahmi, Turmeric, standardized oral formulation, botanical extract, fixed proportion, extraction process, regulatory source, India.

Important Notice

This is a synthetic demonstration document created for testing the IP-SAKTI prototype.

It is not an official legal or regulatory publication and should not be treated as legal advice.
